

## APPROACHES AND APPLICATIONS

Globally, upto 30% of agricultural yields are damaged by pests and diseases despite chemical pesticide use. Biological control of insect pests and diseases is one of the major ecosystem services provided to agriculture worldwide. Natural enemies such as predators, parasitoids and pathogens play a major role in limiting damage from native and exotic pests. The main theme of the conference is to address issues related to various biological control approaches in the context of biodiversity, increased chemical pesticide pressure and climate change. Its emphasis would also be on the challenges faced by the researchers, farmers and other stakeholders in implementing biological control programs. The conference will include keynote addresses, plenary and oral presentations and poster sessions.

1st INTERNATIONAL CONFERENCE ON BIOLOGICAL CONTROL

## **ORGANIZED BY**

The Society for Biocontrol Advancement (SBA) in association with ICAR - NBAIR, Bengaluru

27<sup>th</sup> - 29<sup>th</sup> September 2018 @ Bengaluru,India

## THE ORGANIZING COMMITTEE

President, SBA, Bengaluru Dr. Chandish R. Ballal E-mail:ballalicbc2018@gmail.com

Chief Organizing Secretary ICBC 2018 Dr. Sushil K. Jalali E-mail: jalaliicbc2018@gmail.com

Secretary, SBA, Bengaluru Dr. G. Sivakumar E-mail: sivaicbc2018@gmail.com

**APPROACHES & APPLICATIONS** 

27 - 29 September 2018

ICBC 2018
BIOLOGICAL CONTROL
APPROACHES
&
APPLICATIONS

ICAR - NATIONAL BUREAU OF AGRICULTURAL INSECT RESOURCES Bengaluru - 560024, India
